

"I Roughed It"

Many of us have to work hard all day long. We cannot care for ourselves as we would. No wonder our blood gets out of order, becomes thin and impure. This produces boils, eruptions, nervousness, indigestion, and great weakness.

We have this photograph and letter from Mr. John H. Wagner, of Waga Waga, New South Wales. Read carefully what he says: "I have roughed it a great deal, mining, working in storms, exposed to the heat, and have often had poor food. My blood frequently becomes impure and I have eruptions, boils, and become generally run down. But Ayer's Sarsaparilla takes hold of me every time, makes my blood pure and builds me right up."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas." Be sure you get Ayer's.

Take Ayer's Pills with the Sarsaparilla. They aid in purifying the blood, and they cure constipation and biliousness.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

BUSY SCENES ON BIG FREIGHTER'S DECK.

Few people visit freight steamers and so but a limited number are familiar with the scene depicted above, that of the after portion of the deck of one of the huge steel carriers coming to this port. The Nebraskan is a good type of the modern freighter. Her decks are covered with huge steam winches which operate the heavy booms shown above. Each of these booms is capable of lifting a weight of forty tons and their use cuts down considerably the number of men required to handle the Nebraskan's cargo.

TAMPICO MAKING A LONG VOYAGE

Globe Steamer Left Seattle for This Port Fourteen Days Ago.

The steamer Tampico, of the Globe Navigation Company's line, is making a record trip from Seattle. The freighter was out thirteen days yesterday, and, although momentarily expected, did not show up during the day. While the Tampico does not hold any records for great speed, she is considered much overdue today, as the passage should be made in about ten days' time.

The Tampico may have encountered some of the heavy weather that has been prevailing of late, or possibly had trouble with coal. The vessel had poor coal on her last voyage to the Islands, and it was found to be impossible to make the trip in less than 12 days. In May the Tampico took twelve days for a trip down, but on that occasion she encountered a furious storm, her steering gear broke, and she was delayed for several hours.

The schooner William Nottingham, also belonging to the Globe Company, is expected to arrive here within a few days with a cargo of coal.

To Arrive This Morning.

The passenger agents of the O. and O. Company stated yesterday that they did not expect the steamer Gaelic to arrive from San Francisco until this morning.

BEFORE WE CAN

use them, iron and gold must first be got out of the ore. The same principle applies to cod liver oil. Its virtues are not in its fatty matters; much less in its sickening taste and smell. No consumptive, or sufferer from any other wasting disease, was ever greatly benefited by the so-called "plain" cod liver oil. The shock it gives to the nerves, the repulsion and disgust it excites in the stomach, the outrages it commits upon the senses of smell and taste, are enough to spoil any medicinal potency that may be in it for the majority of people. This—to say nothing about its being indigestible. Yet there has always been reason to believe that, among the elements which form cod liver oil, there existed curative properties of the highest value. But it was necessary to separate them from the nauseating waste material with which they were combined. This was successfully accomplished in

WAMPOLE'S PREPARATION and in this effective remedy, made palatable as honey, we have the very heart and soul of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. These constitute a tissue builder, a blood purifier, a health renewer beyond comparison. Disease yields to it with a completeness and rapidity which astonishes medical men quite as much as it delights their patients. In all wasting conditions, Scrofula and Blood Disorders, La Grippe, Chronic Bronchitis, Pulmonary Affections, etc., it never fails to relieve and cure. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil, in a most palatable form." It stands in the front rank in the march of medicine. Effective from the first dose. Sold by all chemists here.

KINAU TOOK THE PORT BY SURPRISE

Arrived Home Last Night But Was Not Expected Until Sunday.

The Wilder's steamship Kinau returned from San Francisco last night. The well known Hilo liner was reported shortly after 7 o'clock, but after reaching the anchorage and being boarded by Dr. Sinclair, it was decided not to come into port, as the vessel has five hundred tons of general cargo on board, and could not learn at what wharf she would have to berth. The vessel surprised the waterfront, as she was not expected to arrive before Sunday.

Purser T. A. Burningham gives the following report of the vessel's eight-day trip from San Francisco:

Left Pacific street dock, Pier No. 7, at 12:15 p. m. November 13th. Wind from the northwest and rain; discharged pilot at 1:45, and continued on our way to Honolulu. There was a heavy swell running from northwest and north-northwest which gave the old ship ample chance to test her new bilge keels, which are a great advantage to her and have reduced her rolling abilities to a minimum, and now she is as steady as a rock. After the first two days out we fell in with regular northeast trades, and came right along with them, and have had a very fine passage. Distances run: November 14, 212 miles; November 15, 235 miles; November 16, 260 miles; November 17, 255 miles; November 18, 260 miles; November 19, 255 miles; November 20, 250 miles; November 21, 250 miles. Sighted the Island of Maui 8:45 a. m., November 21; and arrived at Honolulu, 8:50 p. m.

The Kinau brought the following passengers: Mrs. F. K. Clarke, Miss Emily Clarke, Mrs. A. V. Inman and son, Mrs. Gurrero and child.

The Zealandia.

The steamer Zealandia was to have left San Francisco in place of the Alameda on November 15. The Zealandia has recently received quite an overhauling, and may be able to make fast enough time to arrive in port today.

A company composed of E. M. Jones, Joe Bothelo, Joseph K. Clark, A. Lazarus and Thomas Kelly have purchased the old hulks formerly owned by F. G. E. Walker, and will commence the work of breaking them up at once.

KING OSCAR'S MEN FULLY PROTECTED

Norwegian Sailors of Dismasted Bark Andromeda Cannot be Discharged.

The Norwegian crew of the dismasted bark Andromeda are having an easy time and being well paid for it, although the vessel they shipped on has been unable to make any money for her owners for months. And the men will continue to have a good time until they are shipped back to the port in Norway at which they became members of the ill-fated vessel's crew.

The men have been aboard of the vessel for three months since the night that the terrible cyclone struck them while they were far off the coast of Central America. Several of the crew were injured at that time, and one of them has been drowned since the vessel has been lying in the Row here, but despite those calamities the remaining men know that they are getting a good living, good sleeping quarters, performing but little work, and at the same time their wages are accumulating. Had this been an American crew they would have been discharged weeks ago, and most of them would have been scattered to the far corners of the earth by this time, but under Norwegian law a man shipped on board a vessel there must be returned, unless he wishes to desert the ship. Should the bark be sold here the company owning it must provide transportation for each of the men back to his own country. The Norwegian shipping law also has other points in it which protect the sailor. When he is engaged half of his wages are paid in Norway, where they are banked, and furnish him a nest-egg after returning from a two or three years' voyage.

The men on the Andromeda are well cared for by Captain Rotter, the genial skipper of the dismasted vessel, and he looks to it that they get the best of food, and, being in port, they of course have plenty of fresh meat. No definite instructions have been received yet by Captain Rotter as to the future of the vessel.

THE TEST THAT TELLS

You Can Get All the Convincing Proof You Want by Reading Honolulu Papers.

When the reader wants any article of value he naturally prefers to deal with some one he can depend upon.

If mixed up in any law suit, a good, responsible lawyer is generally the first necessity sought.

If lost on a prairie, directions from a settler could be relied upon; those from a stranger would be doubted. The test that tells the tale of merit is the test of friends and neighbors. Honolulu people endorse Doan's Backache Kidney Pills.

Can you ask for better evidence? Read this case:

Mr. James C. Stevens, of this city, informs us: "I was troubled with an ache in the small of my back for a long time, and such was the condition of things until I tried some of Doan's Backache Kidney Pills, which I obtained at the Hollister Drug Co's store. A short treatment gave me the desired relief, and I am satisfied that they are a good remedy for backache and deserve to be recommended."

Mr. Stevens is one of our own citizens. Is not such testimony stronger than that of someone living in the States?

Doan's Backache Kidney Pills are sold by all chemists and store keepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.
